

SAGAR ROKA CHHETRI

FULL STACK ENGINEER | PYTHON & REACT SPECIALIST

📍 Nepal • ✉ sc8134s@gmail.com • 🌐 sagarrc.com.np • 🔗 linkedin.com/in/sagar-rc • 🐙 github.com/sc8134

📄 PROFESSIONAL SUMMARY

Performance-driven **Full Stack Engineer** with expertise in architecting scalable web applications, RESTful APIs, and modern responsive frontends using **React, TypeScript, Python (Flask, FastAPI, Django), Node.js, and PostgreSQL/MongoDB**. Experienced delivering production web systems with active users at CodeRunners Technologies, implementing dual-role authentication workflows, automated notification pipelines, and end-to-end cloud/cPanel deployments. Passionate about clean modular code, autonomous AI workflows, and shipping high-impact software solutions.

🔗 TECHNICAL SKILLS

Frontend: React.js, Next.js, Angular, TypeScript, JavaScript (ES6+), Tailwind CSS, Three.js, Responsive UI
Backend & APIs: Python (Flask, FastAPI, Django), Node.js, Express.js, RESTful Architecture, JWT Auth, SMTP
Databases: PostgreSQL, MongoDB, SQLite, MySQL, Relational Schema Design & Query Optimization
DevOps & Tools: Git, GitHub, cPanel Hosting, Vercel, Postman, Linux, SSL Configuration, Domain Routing

📁 PROFESSIONAL EXPERIENCE

CodeRunners Technologies | Full Stack Developer Remote • Jul 2026 – Present

- Architected and engineered core modules for a live production **MERN-stack event management platform** serving active users.
- Developed modern, accessible UI components in **React and Tailwind CSS**, reducing page load latency and streamlining navigation.
- Built scalable backend REST APIs with **Node.js, Express, and MongoDB** to handle dynamic registrations, attendees, and admin roles.
- Engineered automated **SMTP-based transactional email delivery pipelines** for real-time ticket confirmations, alerts, and system notices.
- Managed complete production deployment lifecycle: configured domain routing, provisioned SQL databases on **cPanel**, and set SSL protocols.

CodeAlpha | Full Stack Development Intern Remote • Aug 2026 – Sep 2026

- Engineered full-stack web applications including a **Project Management Board**, an **E-commerce Store**, and a **Social Network**.
- Designed relational schemas and optimized queries in **PostgreSQL/SQLite**; implemented secure auth using **JWT and Django auth**.
- Built interactive Kanban task boards with real-time state management, activity logging, commenting, and team workspace collaboration.
- Integrated dynamic product catalogs with fuzzy search, multi-category filtering, sorting, and session-based cart and checkout workflows.

📁 SELECTED PROJECTS

Janakpur Bolts Army **Production Web Platform** Live Deployment

- Delivered a live production web platform, owning the entire application lifecycle, database provisioning, DNS, and cPanel setup.

Nova DVR **React** **Python / Flask** **Vercel** Video Workflow Platform

- Built React frontend and Python/Flask backend for multi-platform video downloading, batch scheduling, format conversion, and AI tagging.

Signal Job Portal **Full Stack (React • Node.js • PostgreSQL)** Recruitment System

- Built dual-role auth for employers and job-seekers with dedicated dashboards, smart keyword filtering, and candidate matching.

Namo Patro **Open Source (GPL-3.0)** Nepali Calendar Platform

- Built a Bikram Sambat (BS) application featuring Nepali festivals, tithi, and astrological calculations; published under GPL-3.0.

🎓 EDUCATION

Cosmos College of Management & Technology (Pokhara University) Nepal • 2022 – 2026

Bachelor of Computer Engineering (B.C.E.)

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, OOAD, Distributed Systems.

Milestone International College Nepal • 2019 – 2021

+2 Science (Physics & Mathematics) • GPA 3.78 / 4.00 (Top 10% Nationwide)
